DETAILED ACTION

Allowable Subject Matter

1. Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not specifically disclose the combination of limitations as stated in claim 1: a close region image extraction device for extracting a close region image that comprises a nearby object located in the vicinity of a cameraman from color moving images, comprising: capture means for acquiring color moving images of the nearby object by using visible light; an infrared light source for irradiating the nearby object with infrared light; lighting control means that repeatedly turns the infrared light source alternately ON and OFF, in sync with the timing with which the capture means acquire field images; infrared image acquiring means that alternately acquires a lit infrared image which is an infrared image of the nearby object when the infrared light source is lit, and an unlit infrared image which is an infrared image of the nearby object when the infrared light source is unlit, in sync with the timing with which the capture means acquire field images; absolute value differential image acquiring means, which acquires an absolute value image for the difference between the lit infrared image and the unlit infrared image acquired in chronological succession, and wherein said absolute image is obtained by multiplying the subtracted values of the lit infrared image from that of the unlit infrared image by minus 1 when the infrared image which corresponds to the current field image is a lit infrared image and the infrared image which corresponds to the previous field is an unlit infrared image; and extracting

means for extracting the close region image from the color moving images on the basis of the absolute value differential image acquired by the absolute value differential image acquiring means. Claims 6 and 10 are patentable for similar reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
